Version number	V3.0
Classification:	Not protectively marked

Bold Security Group (UK) Ltd recognises its responsibility to the wider community and the role it has to play in protecting the public.

All of our officers are empowered to report suspicious activity and behaviour to the police.

There is also an expectation that if in the course of their day-to-day duties our officers see evidence of criminal activity or anti-social behaviour they will either report it directly to the local police or do so via their control centre. If they do identify such incidents the officers are instructed they must not put themselves at risk of harm or injury. The officers have also received a similar instruction if they identify vulnerable people that may require protection to ensure their safety.

Members of the management team will encourage all employees to complete current awareness training provided and recommended by NaCTSO (The National Counter Terrorism Security Office). Whilst this is a requirement of SIA Top-Up training for renewal of licensing, non-licensed back office employees are also required to complete the training. The training considers business and individual preparedness and awareness of terrorist attacks. It explores what is likely to happen in the event of a terrorist attack and identifies the measures that can assist in preventing, handling and recovering from such an incident.

Our Security Officers are trained to identify vulnerable people and know what steps to take to protect them. The aim is to enable Security staff to support police in taking an active role in ensuring the safety of the public.
